

STATINTL

ER-5-1034

MEMORANDUM FOR: DIRECTOR

Attached is a summary of the current status of appointments made under Public Law 53. The list also indicates commitments for future appointments which will require use of Public Law 53 authority. In addition it includes the names of officers on detail from the armed services who may be retired this year. Although our information is not entirely definite, there is some possibility that [REDACTED] will be released during the next year. Officers whose retirement is classified as service connected or combat incurred do not count against the quota of fifteen authorized by Public Law 53.
